Mission: *Heritage Saskatchewan gives voice to Living Heritage.*

Heritage Saskatchewan's work focuses on three key areas: Research, Community Resilience, and Leadership. It is through our research where we have the ability to influence and inform new thinking about heritage. In turn, we are sharing our knowledge with the people of Saskatchewan to strengthen our collective ability to lead, collaborate, develop and promote Living Heritage in Saskatchewan – giving voice to Living Heritage\*.

\*Living Heritage are those values, beliefs and ways of living we inherit from past generations that we still use to understand the present and make choices for the future. This Living Heritage shapes our sense of identity as individuals and our relationships with others, shaping our communities and our quality of life.

Heritage Saskatchewan's definition of Heritage:

*Heritage is what we have received from the past. It shapes our present identity and provides insight for our future. Heritage includes a range of activities in the areas of stewardship, preservation, research, education and engagement. Within this context, these activities must exhibit sensitivity to the indigenous natural environment; the impact of the interaction between human activity and natural environments; and differing perspectives regarding objects, ideas, places and traditions.*
